

# SOLAR BILLREVIEW

"As of day of print, we are awaiting final approval from Congress on a bill that includes Solar Federal Tax credit of 30% and \$4,000 Federal Tax Incentive for purchasing a used EV".

## DEADLINES FAST APPROACHING:

• 30% Federal Tax credit? • NEM 2.0 • 6 Months of Electricity on us

**SAVECALIFORNIASOLAR.ORG**

www.solarbillreview.com / (925) 833-2641

## SUNPOWER vs. CONVENTIONAL

*What are the most important aspects of an excellent solar experience?*

*More Energy In Less Space*

## 2 OPPOSITE CHOICES: **BEST** vs. **CHEAPEST**

MOUNTING HARDWARE will provide the greatest PEACE OF MIND for roof integrity long term.

### **RAISED FLASHING MOUNTS**

Designed for the ultimate long-term roof protection. It would take an inch of constant rain just to get to the point providing security.

### **WHY NOT GO CHEAP?**

Mount above has no flashing protecting the the roof. Over time, the granules wear down and water will seep in underneath the mount.

## WHAT IS BEING PROPOSED WITH NEM 3.0

### \* **12/2021-** **CPUC ANNOUNCED PRELIM DECISION:**

NEM 3 suggests credits of \$.05  
NEM 2.0 currently pays up to  
\$.60+ per kWh...  
when we sell to PG&E

NEM 3 Tariff is suggesting  
\$8 per kW minimal fee. This  
would mean an average of  
over \$50 a month

With 3 Electricity **PRICE HIKES** in 1st six months of 2022, PG&E implemented the **LARGEST INCREASES EVER**. Some rates went up by over 20%!

*Zoinks!*

Go Solar before NEM 3 and you will be *Grandfathered* into NEM 2.0 for 15- 20 years!

## **NEM 3 UPDATE:**

As of August 1, 2022, nothing final yet. CPUC rules state that a proposed decision must be released within 90 days of the close of the record, which in the NEM proceeding was July 1. We should therefore keep September 29 in mind as a possible release date if they take the full amount of time. The new PD could be released any time before then, but most people are guessing it will be close to or at the deadline.

## WHO IS THE SOLAR BILL REVIEW TEAM?

- Your Local Family-Owned Customer Advocacy Team Helping You Go Solar
- Collectively, we have helped thousands of Bay Area home owners to go solar
- Only working with the best quality equipment and most qualified installers
- Practicing Honesty and Surprise Prevention
- Pro-Active Post-Installation Follow Up
- Communication on your terms

Daron in Castro Valley- "super responsive and so passionate"

Helena in Fremont- "Suuuuuper knowledgeable and not sale-sy"

Justin in Hayward- "explained our energy usage, solar production, all the charges and rates listed, and set a couple goals for our family"

Alex in Pleasanton- "... customer for nearly 6 years. Very knowledgeable. Very customer focused. Always available for any questions. In addition, passed them on to a number of my neighbors who are also happy customers as well".

Naresh in San Ramon- "customer support is amazing. Followup calls on quarterly basis to ensure we understand our bill and the variations"

### COMMON CONCERNS ABOUT GOING SOLAR

"I need a new roof before I go solar"

A: Consult with your tax expert to identify how much of the new roof cost can be included in the Solar **Federal Tax credit of 30%**.

"We can't afford to go solar"

A: Most are already paying more to local utility companies than what a NO MONEY DOWN, solar loan costs monthly. It is a bill swap.

"I heard you get a Surprise Bill at end of the year"

A: With "The Solar Bill Review TEAM", we continue to consult with you after installation so there are no surprises.
